Dear Professor Zhang,

**RE: LETTER OF SUPPORT – PROFESSOR SHENG WANG
NOMINATION AS AN IEA FELLOW**

I would like to offer my support to the nomination from the Chinese Ergonomics Society for Professor Sheng Wang to be considered as a Fellow of the International Ergonomics Association.

I have known Professor Sheng Wang for more than 10 years in his capacity as an IEA Council member and the Congress Convenor for IEA 2009 hosted in Beijing, China.

Professor Wang has been deeply committed to ensuring that the first IEA Congress to be hosted in China was an outstanding success. Together with his team from the CES, he worked tirelessly for 6 years in the lead up to the Congress and throughout the Congress to ensure it achieved and exceeded our expectations.

During these years, Professor Wang travelled and met with representatives from the IEA societies across the world. He demonstrated a deep commitment towards achieving the goals of the IEA through his work in preparation and when hosting the IEA Congress.

Apart from his international work through the IEA Council, Professor Wang is also a highly regarded leader in ergonomics in China. His extensive CV relating to teaching and research is a testimony to his lifelong commitment in this profession.

As part of his commitment towards the development of ergonomics in China, Professor Wang has led delegations of educators, researchers, and students to many countries across the Asia Pacific region. We were fortunate enough to host a delegation of 15 representatives from China at La Trobe University in Melbourne, and the University of New South Wales in Sydney, during 2013.

I would like to add my support as a Past President of the International Ergonomics Association for the nomination of Professor Sheng Wang as an IEA Fellow.

Yours sincerely,

David C Caple
Past President IEA
