

April 27, 2015

To Whom It May Concern,

I am writing to strongly support the nomination of Professor Sheng Wang to be a fellow of International Ergonomics Association (IEA).

I have known Professor Wang for almost 20 years. He participated the 4th Pan-Pacific Conference of Occupational Ergonomics which was held in Taipei in 1996. Since then we had the chance to meet each other in various professional occasions including IEA council meetings. Professor Wang has been an IEA Council Member since 2004. He is one of the pioneers in promoting Ergonomics in China. He served as the secretary general of Chinese Ergonomics Society (CES) for many years, and became the President of CES from 2004 to 2012. During his term, he successfully organized the IEA 2009 in Beijing. Last year, he also initiated the Chinese Association of Ergonomics Societies (CAES) and became the President of the CAES. In addition, he has been actively involved in various professional activities including the Editor of Chinese Ergonomics, and Editor in Chief of the Chinese Journal of Industrial Hygiene and Occupational Diseases. His contribution to the Ergonomics profession both locally and globally is tremendous and extensive.

Moreover, Professor Wang has published more than 200 journal papers as well as a few edited books and book chapters. He received numerous awards in research and teaching excellence. He is currently the Professor in School of Public Health in Peking University, one of the most prestigious university in China. All the impressive track records support his significant contribution and outstanding performance in the areas of Ergonomics and Occupational Health in his academic career. Therefore, I have no reservation to support Professor Sheng Wang's nomination to be an IEA Fellow. If you have any question, please do not hesitate to contact me.

Sincerely yours,

Mao-Jiun J. Wang

Dean of Engineering, National Tsing Hua University  
Fellow of IEA
