Dear Professor Grandjean,

Thank you for your letter of the 13th July asking for the names of the representatives of the Ergonomics Research Society for the General Assembly at the I.E.A. For the first half we would like to be represented by the following five :-

For the second half, if the amendment to the proposals as put forward by the Ergonomics Research Society are approved, we would like the above five people plus the following five :-

P.R. Smith

If on the other hand the amendment is not approved, then we would like the first five names plus the following five :-

W.P. Colquhoun
J. W. Hill

or a national one so far as non-conformity etc. is concerned. As you know our aim in putting forward this amendment is because we think that the International Association should be an organisation based on Societies. One reason for this is that national societies are in a much better position to decide on the merits of any particular applicant.

Looking forward to seeing you in Birmingham.

Yours sincerely,
