ANNOUNCEMENTS

Deadline Extension: INCOSE/HSI and IEA Joint Conference - Call for Papers

The International Council on Systems Engineering (INCOSE), together with IEA, will jointly organize the International Conference on Human Systems Integration, HSI2021, as a hybrid event to be held 17-19 November 2021. Proposal submissions, including full research papers, industry track, early-stage research, posters, abstracts, panels, workshops, and poster demos are now due **14 April 2021**. For more information, please visit the [HSI2021 Call For Submission](#) page.

IEA2021 UPDATES

Virtual Brand Recognition at IEA2021

With the June 2021 Triennial Congress now fully virtual, new sponsorship and exhibit opportunities are available to promote brand awareness within the international HF/E community and to support HF/E. Pricing is highly discounted to allow small- and medium-size enterprises to highlight their products and or services and demonstrate support for the field. Even sole proprietors can find excellent value in exhibiting and setting up a booth on our virtual platform, with no need to worry about logistics, décor, or travel. More information on the exhibit program is available [here](#), where you can find a detailed prospectus and registration information. To get a sense of the look and feel of a virtual booth, visit [this link](#). The sponsorship prospectus has also been updated and can be found at the bottom of [this page](#). To request further information about sponsorship please contact info@iea2021.org

Updated Keynote Speakers List

In addition to the four distinguished keynote speakers reported in our January [NewsBriefs](#) issue, three new keynotes have joined this list. For more information about all of the IEA2021 keynote speakers, please visit their speaker profiles here: <https://iea2021.org/news-briefs?blog=y&blogcategory=Speakers>

- “The Need for Innovative Approaches to the Measurement and Analysis of Ergonomic Risk Factors” by Dr. Nidhi Gupta (Denmark)
- “Human-Centered Artificial Intelligence: A Second

- Copernican Revolution” by Dr. Ben Shneiderman (USA)
- “Trust in Automation and Autonomy” by Dr. Peter A. Hancock (USA)

Registration Fees Posted

As a virtual event, IEA2021 (13-18 June 2021) promotes broad participation and provides unparalleled value, with a technical program that comprises more than 250 sessions, workshops, panels, and renowned keynote speakers. Members of IEA societies benefit from a reduced rate. Students and delegates from Low and Medium Income (LMIC) countries enjoy an extra-special discount. The low-priced registration comes with important other benefits as well. All who register will have on-demand access to recorded sessions for 30 days after the start of the Congress. Plus, registrants will have free online access to the published proceedings on the Springer web portal and will be able to download the contents for a limited time (4 weeks). More information about how to register is available [here:https://iea2021.org/registration-information](https://iea2021.org/registration-information)

Registration fees:

- IEA members - CAN\$ 499
- Nonmembers - CAN\$ 595
- Students and delegates from LMIC - CAN\$ 125

Reminder: IEA Awards Nomination Deadline Extension

Yushi Fujita, Chair of the IEA Awards Standing Committee, has announced that the deadline has been extended to 31 March 2021 for these Triennial Awards:

- The IEA Distinguished Service Award
- IEA Ergonomics Development Award
- IEA/Elsevier John Wilson Award

For more information, please

visit: <https://iea.cc/awards/iea-triennial-awards/>. We hope that your society will consider nominating qualified candidates for these prestigious awards. For additional information, please contact Yushi Fujita, Awards Standing Committee Chair, at pastpres@iea.cc

EVENTS

Human Factors and Ergonomics Society (HFES) Virtual Healthcare Symposium

There is still time to [register](#) for the HFES International Symposium on Human Factors and Ergonomics in Healthcare, which will be held virtually, 12-16 April 2021. Topics are centered around five main tracks: education and simulation, patient safety research and initiatives, digital health, hospital environments, and medical and drug delivery devices. Please visit [their website](#) for more details, and read more about their [workshops](#) held 12 April 2021.
