Is the title Ergonomist, HFE specialist, or similar protected by law in your country?	YES
Are there laws in your country requiring ergonomic adaptations in the workplace, or for working tools, etc.	YES LAW 29783 Ministerial Resolution 375-2008-TR
Is there a professional certification system for HFE specialists in your country or region?	In Peru not yet, in Argentina Chile and Brazil yes
Do you have a promotion program or special membership categories for early career / students?	NO
Are there university level courses for HFE specialists in your country?	YES. MASTER'S DEGREE IN ERGONOMICS AND DIPLOMATES IN ERGONOMICS

<p>Does your society have any official special interest sub-groups, similar to IEA's Technical Committees?</p>	<p>NO</p>
<p>Are there adequate work opportunities for HFE graduates?</p>	<p>YES</p>
<p>What issues do you have that you would like to discuss with others at the IEA meeting?</p>	<p>THERE IS LITTLE DEMAND FOR ERGONOMICS IN COMPANIES IN PERU, BUT ERGONOMIC STUDIES ARE MANDATORY BY LAW. LARGE COMPANIES INVEST IN ERGONOMIC</p>
<p>How do you plan to promote IEA2024 to your members? Do you need any material?</p>	<p>We are aware of the challenge of popularizing this scientific discipline in our country, especially given the high percentage of informal labor and the general population's lack of awareness about workplace safety and health issues. This makes mass implementation difficult.</p> <p>One of the major challenges for the current board is to initiate the certification process for Peruvian ergonomists to standardize their performance in Peru and stay at the forefront of high-quality Ergonomics concepts with a systems-based approach.</p> <p>To become an associate of the Peruvian Society of Ergonomics, certain requirements must be met, as outlined on our website: http://sopergo.com/v2/sopergo-quienes-somos/membresia/</p> <p>In the Peruvian Society of Ergonomics, we will continue to work towards improving OSH conditions with the support of all our members and the general public.</p>
