	Slack	Tiago / Ivan	STP TC supports channel creation.	[Calendar grid with 'Ongoing' text]																																			
	Social media	Gabriel	LinkedIn	[Calendar grid]																																			
	Newsletters	Ivan		[Calendar grid]																																			
Promotion of discussion	Webinar / PhD Event	Gabriel	Linked to PhD in Ergonomics	[Calendar grid]																																			
	ODAM Congress	Karen	In coordination with Michelle Robertson.	[Calendar grid]																																			
	IEA 2024	Tiago / Ivan		[Calendar grid]																																			
Publications	To be developed. They could be associated with the events.	Karen	Special issue or book result of webinar Proceedings of ODAM - Special issue?	[Calendar grid]																																			

1 Online meetings with most of the sub-committee chairs to improve co-participation
 → The impression is that everyone is busy or in some transition phase.

2 Webinar: Sustainability, development and alternatives to sustainable development. Opportunities for E/FH.
 → Re-scheduled for the first half of 2023.

3 Invitation for a Symposium proposal on E/HF and Sustainability to discuss the following question: *Understanding sustainability as an application area, how could E/HF contribute to societal transitions?*
 → No proposals were received, but Andrew Thatcher will give a keynote speech.

4 Publication of the article "Past, present, and future of E/HF for sustainability: A perspective from the HFSD Technical Committee" by IOS Work (October 2022)

- 5**
- Promoted by Maggie Graff: Seventh International Conference on ICT Sustainable Development.
 - Promoted by Andrew Thatcher, Dan Gottesman and David Rempel: HFES and Sustainability Task Force activities: Panel session, poster, webinar (e.g. Applying Biophilic Design for Health & Wellbeing in the Built Environment)
 - Promoted by Dan Gottesman: Series of Dialogues exploring the intersection of HFE and Sustainability.
 - Promoted by PhD in Ergonomics (Univalle) with Andrew Thatcher, Gabriel García-Acosta and Karen Lange-Morales: Open Lecture in Ergonomics and Sustainability.
 - Promoted by Emilio Rossi and Erminia Attaianese: Italian Journal of Ergonomics: Special issue "Sustainable Ergonomics – Ergonomics for Sustainability".

6 Planning and construction of an international and transdisciplinary project to apply HFSD TC concepts in practice: "Pulses of water: An integrated approach to the amphibian Letitia"
