

NEWSBRIEFS

July 2026

The global IEA community is hard at work organising many exciting events, including conferences and webinars, in 2026. Keep up to date with the latest events and news to ensure that your 2026 is filled with all things HF/E. In this edition, the 'Announcements' section shares some exciting HF/E news, including new publications, updates on IEA2027 and more! The 'Upcoming Events' section includes information on a webinar taking place in September, as well as several HF/E events and conferences scheduled for the latter half of 2026. A new section highlights IEA Sustaining Members – this month presenting Tsinghua University's MEMS. As always, we appreciate the ongoing support and commitment of the global IEA community to share updates that will be of interest to our community. Please continue to share news and updates with us newsbriefs@iea.cc.

ANNOUNCEMENTS

New publication: Ergonomics Made Easy: A resource Book for Workers

We are excited to announce publication of the third free e-book in the "Ergonomics in a nutshell" series, this one designed for workers (labour).

[Learn more about the publication](#)

Next nutshell publication planned will be for young children (and their parents). If you have ideas for Nutshell publications for other important stakeholder groups, let us know.

Save the date: 2026 IEA Council meeting 2-3 November in Florianópolis, Brazil

Please note that the 2026 IEA Council meeting will take place in the beautiful city of in Florianópolis, Brazil at the Oceania Convention Centre, Praia dos Ingleses. The meeting will be immediately followed by ABERGO's annual conference. Council members are invited to attend the ABERGO conference free of charge but must indicate their intention to attend to organizers.

Council members received a survey link by email (in July) to indicate their intention to attend these events.

Details concerning Virtual Council Gathering on the 27th of August

The third IEA Virtual Council Gathering will take place on the 27th of August, bringing together council representatives, sustaining members and the executive committee to exchange best practices for promoting ergonomics and human factors.

IEA SUSTAINING MEMBERS SPOTLIGHT:

The IEA is launching a new series spotlighting one Corporate Sustaining Member each month, beginning with Diamond Level member *Tsinghua University (MEM Education Center)*. Discover how the university's commitment to human-centred engineering, global collaboration and ergonomic education is supporting the next generation of engineering leaders.

[Read about Tsinghua University MEM Education Center](#)

TECHNICAL COMMITTEES (TCs):

The IEA's Technical Committees (TCs) are ad-hoc special interest groups that are formed as a platform to exchange up-to-date information on and discuss a particular HFE field. More information is available at: <https://iea.cc/leadership/technical-committees/>

TC Creation

If you, with at least 5 colleagues, share a passion for a particular special interest area which does not exist as a *Technical Committee (TC)* and you wish to create a *new TC*, please contact stpchair@iea.cc for formalizing this. The process is easy and free!

Sign Up Sheet

The IEA Technical Committees (TCs) are seeking to expand their membership and invite new members from federated societies. To facilitate this, we have created a sign-up form that provides an overview of the role of Technical Committees, including their four primary functions. By completing the form, you can express your interest in joining up to two TCs. Once submitted, TC administrators will review your submission and reach out for further details.

[IEA TC sign up form](#)

Joining a TC is free and there are no qualifying criteria (just that you are a member of a federated society) to join and to participate. You can also join more than one TC if your interests are broader. You are always welcome to reach out to TC chairs in addition.
