My little story of the ergonomic crossroads of three parallel roads

Date: June 11, 2025

Time: 16:00 (04:00 PM)

Duration: 70 minutes, including time for discussion.

This online webinar aims to explore how the approaches of the two TCs, EWAT and G&W – specifically, the ergonomic work analysis and training, and gender and work – can be conceptually and methodologically integrated. Prof. C. Chatigny (UQÀM, Canada – Québec) will present her approach and contributions, based on over 20 years of intervention-based research and teaching in occupational health. She will propose perspectives to further the reflection on the intersection of the EWAT and G&W approaches.
