

IEA WEBINAR

Preparedness and Pandemic: The role of human factors and ergonomics in responding to the Covid 19 healthcare emergency

Human factors and ergonomics (HF/E) specialists have supported healthcare organizations in responding to the Covid 19 emergency in many ways. In particular, they have applied HF/E approaches and techniques in order to foster the strategic dimensions of preparedness. Quality and safety can be developed in support of the capacity of healthcare organizations to respond to crises such as Covid 19.

Duration	90 mins
Date and time	4 March 2021 - 1730 UTC
Program chairs	<i>Sara Albolino</i> (IEA Secretary General) and <i>Michelle Robertson</i> (IEA Executive Committee member)
Presentation of the webinar	<i>Kathleen Mosier</i> , USA (San Francisco State University and President of IEA)
